

FINANCIAL ANALYSIS SKILLS FOR NGO MANAGERS.

Nonprofit organizations are measured by the effectiveness of their services and how successfully they achieve their mission. The ability to deliver effective services is dependent on sound management practices, of which financial management is an essential piece.

NGO financial statements provide insight into the sources of funding, the cost of service delivery, and an organization's ability to operate in the future. However, varying donor and regulatory requirements create challenges in financial reporting and analysis in many nonprofit organizations.

Explore the basic to advanced features of financial statements.

Make better informed decisions

Evaluate the short-term and long-term stability of the organization.

Know your organizations financial health.

Shaping Career !

This course has been designed help participants develop an understanding of financial statements and the critical information these statements provide to the organization to better understand the financial impact of internal management decisions. It covers the fundamental definitions, concepts and structure of accounting; an overview of standard financial statements; and basic tools for analyzing financial information. The course also cover some of the key ratios used to evaluate non-profits' liquidity, solvency, and profitability, and explores decision-making frameworks to evaluate the impact and efficacy of different projects.

Participants will gain a better understanding, the knowledge and the skills to make solid financial and strategic decisions, and benefit from enhanced ability to execute their decisions, while accurately monitoring key projects. This course will build their expertise and confidence to communicate the organizations plans and results to both financial and nonfinancial audiences.

WHAT YOU WILL LEARN.

This is a highly practical, hands-on course designed to meet the needs of the modern day nonprofit manager. As a result of attending this program, participants will be able to:

1. Read and interpret financial statements
2. Evaluate overall financial performance of the organization.
3. Evaluate the short-term and long-term stability of the organization.
4. Apply basic financial principles to nonprofit management.
5. Account for key business activities.
6. Calculate financial ratios to further diagnose the organization's financial health.
7. Make better decisions to increase sustainability.
8. Excel basics and techniques for financial analysis.

WHO SHOULD ATTEND THIS COURSE?.

This interactive and hands on course is intended for managers of nonprofit organizations who make or contribute to decisions that have significant financial implications.

NGO Leaders, administrators, board members; decision-making program staff; CEOs and executive directors without a formal finance background from a range of types of nonprofits. People seeking promotion into administrative or managerial roles.
